## **Notes to Financial Statement**

**December 31, 2007**

---

### **1. Organization and Nature of Business**

Princeton Securities Group, Inc. (the "Company") is a broker-dealer registered with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Company engages principally in executing transaction orders on the floor of the New York Stock Exchange on behalf of its clients.

### **2. Summary of Significant Accounting Policies**

#### **Cash Equivalents**

The Company considers all money market accounts and all highly liquid debt instruments purchased with original maturities of three months or less to be cash equivalents.

#### **Furniture, Fixtures and Equipment**

Furniture, fixtures and equipment are stated at cost less accumulated depreciation. Depreciation is computed using accelerated and straight line methods over the estimated useful lives of the related assets. The useful lives of the assets range from 3 to 5 years.

#### **Use of Estimates**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### **Securities Owned, at Market**

Marketable securities are valued at market value.

#### **Income Taxes**

The Company has elected to be treated as an S Corporation under the applicable provisions of the Internal Revenue Code. Accordingly, the Company is not subject to Federal income tax. The stockholder is required to report separately his distributive share of the Company's income or loss to Federal tax authorities. In addition, the Company has elected S Corporation status for New York State tax purposes and, accordingly, the Company pays New York State income tax at the minimum rate. New York City, however, does not recognize S Corporation status, and the Company is, therefore, taxed at regular corporation tax rates.

The Company uses the asset and liability method to calculate deferred tax assets and liabilities. Deferred taxes are recognized based on the differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases using enacted tax rates expected to apply to taxable income in the years in which those differences are expected to be recovered or settled.

# Princeton Securities Group, Inc.

## Notes to Financial Statement

December 31, 2007

In addition, since May of 2007, the Company has received from this affiliate commission income for trade brokerage clearance and execution services.

Deferred tax asset	\$ 25,800
Deferred tax liability	<u>(2,900)</u>
Net deferred tax asset	<u>\$ 22,900</u>

### 8. Clearance Agreement

As part of this agreement, the Company is required to maintain cash or securities of not less than \$500,000. This deposit is included with securities owned, at market.

### 9. Net Capital Requirements

The Company is subject to the uniform net capital requirements of rule 15c3-1 of the Securities and Exchange Commission, as amended, which requires a broker-dealer to have, at all times, sufficient liquid assets to cover current indebtedness. In accordance with the rule, the broker-dealer is required to maintain defined minimum net capital of the greater of \$100,000 or 1/15 of aggregate indebtedness. At no time may the ratio of aggregate indebtedness to net capital exceed 15 to 1.

#### **10. Off-Balance-Sheet Risk**

The Company, as an introducing broker, clears all transactions with and for customers on a fully disclosed basis with the clearing broker, who carries all of the accounts of such customers. However, the Company may be liable for chargebacks on introduced customer accounts carried by the clearing broker. In addition, the Company may be exposed to off-balance-sheet risk in the event the clearing broker is unable to fulfill its contractual obligations.

The Company has cash at a bank in excess of FDIC insured limits and is exposed to the credit risk resulting from this concentration.

#### **11. Profit Sharing Plan**

The Company sponsors a defined contribution plan covering substantially all of the Company's employees. The contribution under the plan is 20% of base pay up to statutory limitations. The Company's contribution, which is at management's discretion, is determined annually. Management elected not to make a contribution for the year ended December 31, 2007.

The Company also has a 401(k) profit sharing plan covering all eligible employees. Under the Plan agreement, employer matching contributions are discretionary and are determined on an annual basis by the Company.
